

A&R Forensic Auto Lab LLC

ROB PAINTER, ASE, CFL, CFEI, CVFI

Phone-1-866-490-1673

Fax-1-800-886-6352

Senior Forensic Analyst-Consultant

Insurance SIU Investigation Consultant

Diplomate, Board Certified Forensic Examiner
ASE Certified Auto, Collision, Med/Hvy/Duty Truck Technician
Certified Forensic Locksmith

Certified Vehicle Fire Investigator

Certified Fire and Explosion Investigator

<http://www.autotheftexpert.com>

Email-Robo14@aol.com

As per federal court rules of evidence (702) (Daubert) my testimony has qualified me as:
Auto Theft and Fraud Expert
Forensic Vehicle Analyst
Fire Origin and Cause Expert

Qualified to testify as an expert for the Defense in a USAF Court Martial in the areas of Origin and Cause of Vehicle Fires, Transponder System Operation, Ignition Locks, Steering Columns, Auto Theft and Vehicle Burn Debris Analysis.

December---2006 Appointed "Special Instructor" for the Darien, WI Fire Department

August—2006 Illinois Court (Cook County) appointed Umpire (Mediator)

April-2006 Worked with Brad Stone of Newsweek from San Francisco on a story, which is understood to be published in 5-2006 about insurance fraud related to reported stolen vehicles and the so-called factory installed "Anti-Theft Systems."

July-2004 Assisted San Francisco PD in a homicide investigation involving a reported stolen and recovered burned vehicle.

September-2004 Contacted by the TV show "Forensic Files" for a potential story to be aired.

Robert Painter is also cited in West Law in the case Sailsbury/Davis VS. State Farm

BUSINESS EXPERIENCE

- Formed the non Profit Forensic Institute on Auto Theft Analysis. Both organizations are to set the standards in forensics as it relates to reported stolen vehicles and to provide Training to examiners, fire service and law enforcement.
- Founded the “International Association of Forensic Auto Theft Examiners.” Its purpose is to set the standards in the field of determining the last operation of a reported stolen vehicle.
- 1986 opened **Auto Recovery Specialists Inc.**, providing exclusive repair of theft recovered and vandalized vehicles. The initial concept of the business was to return vehicles to their original shape before the theft, vandalism or fire. In 1987 bought the rights to the theft deterrent known as the “Chicago Collar”®. Duties include complete component replacement: dash, stereo system, interior, locks and coding, rebuilding steering columns, repairing and installing vehicle security system components (factory and after market), engine components, body repair, glass replacement, repair and service of air conditioning components, brake and suspension repair, and replacement, wiring harnesses etc. to return vehicle to pre-theft condition.
- For 17 years directly involved in the repair of over 10,000 theft-recovered and fire damaged vehicles.
- Personally examined and rebuilt thousands of steering columns on both import and domestic vehicles
- Internationally acknowledged as expert in auto theft including court, consulting with insurance companies, attorneys and law enforcement.
- Consultant on steering columns, locks, stereo systems and vehicle security for Special Investigation Units for many large insurance carriers during the past 10 years. Consulting services include but not limited to: How a vehicle was last operated (with or without keys in burned or unburned vehicles), Origin and Cause of vehicle fires, and vehicle defects.
- Provides services as a consultant and researcher to attorneys and insurance companies, and private industry throughout the US in cases related to vehicles.
- Has worked with crime prevention officers throughout the US establishing training programs designed to protect the public from becoming victims of auto theft.

Insurance Claims Experience

20 years in insurance claims handling. With Auto Recovery, we were direct pay and handled the claim in its entirety, Wrote estimates, figured for betterment and diminished value, determined if vehicle was total loss. Handled everything related to the claim except for writing a check to the insured.

Rob Painter & Associates Inc, trained SIUs on auto theft and what indicators to be watched for in a questionable claim as to last operation. Attended seminars on insurance fraud, body language, investigation, interviewing procedures.

Trained in insurance fraud indicators .

Familiar with ISO Database.

Assisted in-house attorneys on the merits of claims as to pay or deny the claim.

Has reviewed over 100,000 pages of insurance activity notes, depositions, EUOs, affidavits.

Authors questions for insureds for the insurance carriers to be asked of the insured when giving recorded statements on the events surrounding the theft of their vehicles and for EUOs.

Authors questions for client attorneys for direct examinations in court in the proper court format as well as authors the questions for opposing experts as to accepted methodology. Authors questions for insurance SIU personnel as it relates to standard investigation methodology for depositions.

Has participated with client attorneys in hundreds of bad faith cases when the insured was denied coverage.

Actively serves as an instructor to insurance companies on the subjects of origin and cause of vehicle fires, auto theft and vehicle forensics.

Currently serves as an Insurance SIU Investigation Consultant for insureds during the investigation, Prepares them for EUOs. Does not offer legal advice, but guides insureds as to his very extensive experience in these matters. Has 17 years experience with these in this area..

Serves as a consultant to Insurance Defense attorneys, Plaintiff attorneys, Criminal Defense attorneys, Prosecutors, SIU personnel as it relates to issues involving auto theft claims.

20 years experience in the forensic examinations of reported stolen vehicles to determine the last operation of the vehicle.

- **PATENT:** 3/21/00 issued patent# 6,039,140 for 8 different variations of airbag anti-theft devices.

PUBLICATIONS

Currently author's articles and test reports on an ongoing basis for insurance SIUs and the forensic/vehicle fire/theft industry.

- ❖ Published author: **Anti-Theft v. Theft Deterrents-** Insurance Industry Publication (January, 2006).
- ❖ Published author: **The Truth about GM PASSLOCK-III** revision (Hypotheses to be considered before rendering a conclusion) (Spring, 2005 IASIU—Insurance Industry Publication)
- ❖ Published author: (1,350 slide training course) Auto Theft/ Fraud Training Course) “**The Modern Forensic Approach to Auto Theft Investigation.**” (January, 2001)
- ❖ Published author: “**Absolute Statements Made By Experts**” (Insurance publication-Sept. 2003)

- ❖ Published Author: (Article) Fraud Defense Network-August, 2000 Edition-**“Melting Steering Column Tests.”** <http://www.fraudreport.com/index.cfm?month=08&year=2000>
- ❖ Published author: **(Test Report)** “Burned Toyota Steering Column Testing to Determine How Last Operated”. Tool marks and procedures. (December 1999) Currently at the FBI Crime Lab in Washington DC and the US Army Crime Lab in Atlanta, GA for peer review.

ACCOMPLISHMENTS

- ❖ Defeated the **“unstealable”** Ford Securilock transponder system for a court case 10/10/00. They said it could not be done!
- ❖ Primary designer of a state of the art “bait” car for a police department to catch car thieves.
- ❖ Worked with The National Highway Safety Transportation Administration and discovered a potential fire hazard on a vehicle and determined origin and cause of under hood fires on this type of vehicle.

- ❖ Featured as “Auto Theft Expert” in the A & E auto theft documentary “**Stealing Wheels**” that aired July 26, 2000.
- ❖ Contacted by Sears and Edelman Marketing to be a national spokesman for an anti theft device for vehicles. (November 1999)
- ❖ Invited to provide evaluation and consulting to steering column engineers at Daimler Chrysler Corporation in Auburn Hills, MI (10/99). The purpose of this project was to demonstrate how steering column locking mechanisms could be defeated without the use of a key and how to reinforce the columns against theft.
- ❖ Court Qualified as an Auto Theft Expert and my videos of defeating columns were also accepted by a Cleveland, Ohio Court in October 1999 as a valid piece of evidence.
- ❖ Contacted by Disney Touchstone Pictures for technical assistance in making the movie “Gone in 60 Seconds” (March 1999)

CONSULTANT FOR FOLLOWING ORGANIZATIONS

- Former contributor for The Insurance News Network (Auto theft and prevention) includes heading a forum for the public on how to protect their vehicles for 3+ years.
- Former editor and consultant for the public on matters involving auto theft and prevention 2000-2001 on the web at http://www.autotheft_forum.com.
- The Insurance Career Center (Auto theft and fraud).
- National Association of Investigative Specialists (Auto theft and fraud)
- Expert Find (Auto theft and fraud}

TECHNICAL EXPERIENCE

- ASE (National Institute of Automotive Service Excellence) Certified in Auto: brakes, steering and suspension, engine repair, manual drive train and axles, air conditioning. Med/Heavy duty truck: gasoline engine repair, electrical/electronic components. Collision: electric/electronic components.
- SCRS (Society of Collision Repair Specialists) certified in airbags.
- ICAR (Inter-Industry Conference of Auto Collision Repair) trained.

EDUCATION

- American College of Forensic Examiners
- Racine, WI Vocational School

- Moraine Park Technical School
- Milwaukee Area Technical School
- General Motors Factory School
- AC Delco School
- Harnischfeger Corporation

PREVIOUS TECHNICAL EXPERIENCE

FORMER MEMBERSHIPS

These are the organizations I belonged to, but after constant attacks from opposing council, I just got tired of being attacked for paying a fee to be a member. I am no longer current on dues to these organizations and find no benefit in being an active member.

- IAAI International Association of Arson Investigators (Multiple chapter membership)
- IAATI International Association of Auto Theft Investigators
- NCRC North Central Regional Chapter of IAATI
- IATN International Automotive Technicians Network
- SCIFI South Carolina Insurance Fraud Investigators
- NAFI National Association of Fire Investigators
- ACFE American College of Forensic Examiners

Public Service Hearing:

County of Los Angeles VS Clarence Johns-5/2003

Johns-Client--- Vehicle theft/ fire

29 certifications, accolades, and accomplishments of Rob Painter during his extensive career in vehicle theft, forensics, vehicle fire, transponders and other anti-theft systems, patent for 8 different methods of prevention of air bag theft, ASE automobile

certifications in auto/medium hvy/duty truck. ASE is considered the gold standards for competence in automotive repair are available on request.

All of this combined with over 17 years of exclusively in the direct repair of over 10,000 theft recovered vehicles, as well as the claims handling makes Rob Painter's background in ignition systems, transponder systems, vehicle fire and forensics very extensive as it would relate to any reported stolen vehicle.

Available on request are 9 Westlaw published cases in which Rob was the expert that are used as precedents for other cases.

Available on Request is the June, 2010 Federal Court qualification for Rob Painter being qualified as a forensic examiner under Daubert in the Nunn v. State Farm case.
